WHAT IS A CAREER PANEL

In career panels, professionals discuss in bite-sized portions about their career and professional development. Typically there are 2-3 professionals as part of a career panel. There is typically a moderator for these events, and students will field their questions throughout presentations.

Example Format

Career Panels generally observe the following format:

Panelist introductions (5 mins)
Panelist Presentation (10 min x3)
Questions (10 mins)

BE DESCRIPTIVE

Students will be more engaged and curious if they have a better understanding of your career and journey. Being descriptive goes a long way in fostering an engaging environment.

COLLABORATE & ENCOURAGE QUESTIONS

Career Panels benefit from their intimate, bite-sized scale. Students will no doubt be curious, and should be encouraged to ask questions throughout the panel.
